## **IDSA BECOMES FIRST CHARTER MEMBER OF THE DESIGN REGISTRATION LEAGUE**

The Design Registration League is very pleased to announce that our first charter member is The Industrial Designers Society of America (IDSA).

The IDSA was founded over forty years ago in order to serve as a voice for the industrial design profession ([www.idsa.org](http://www.idsa.org)). Now, with over 3,300 members, IDSA continues its mission of advancing industrial design by signing on as a charter member of the Design Registration League.

The DRL is very proud that our country's leading organization of industrial designers was the first to answer our call for companies and associations to support the enactment of a modern, 21<sup>st</sup> century design protection law in the United States.

We wish to thank the IDSA for its vote of confidence and support.

Lee Plaza, Suite 603 | 8601 Georgia Avenue | Silver Spring, MD 20910
